

EXPLORER JOURNEY

SOFTWARE DEVELOPMENT BASICS CERTIFICATE

2020

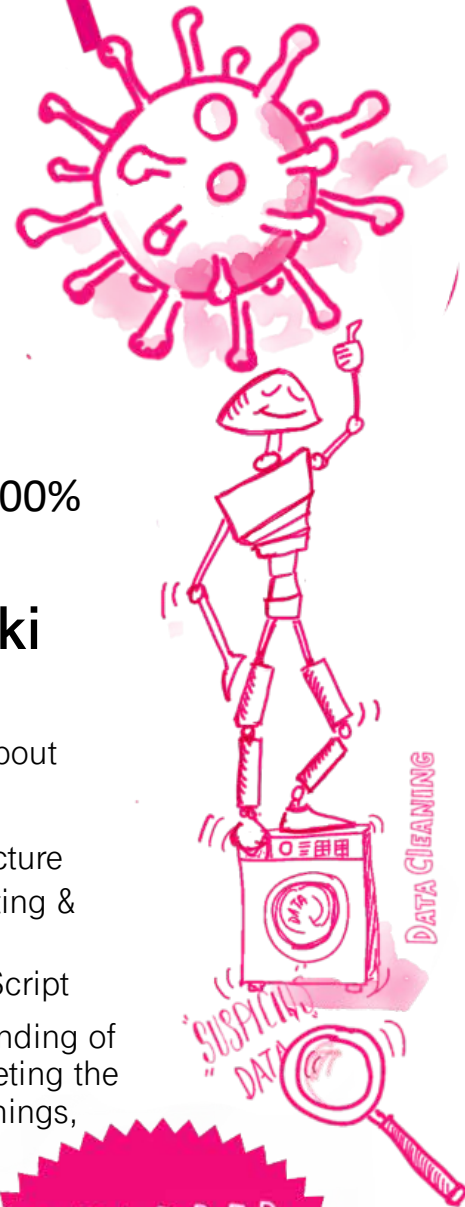

100%

This is to certify that
Stojan Gocevski

acquired fundamental knowledge about

- basic coding principles
- introduction to TelCo IT Architecture
- the concepts of Databases, Testing & Debugging Tools
- basics of HTML, CSS and JavaScript

The participant has proven an understanding of Software Development Basics by completing the learning journey, composed of e-learnings, expert talks and assignments.

In recognition of this achievement and the commitment shown, Future Skilling is pleased to award this certification.
